

AKSHAY WAGHELA

Data Scientist | Python - Machine Learning - Statistical Modeling - NLP - TensorFlow - SQL
Mumbai | akshaywaghela1111@gmail.com | +91 7400124094 | [LinkedIn](#) | [GitHub](#)

SUMMARY

Data Scientist with 2.5+ years applying statistical modeling, ML, and NLP to real-world business problems across pharma, finance, and research. M.Sc. Statistics graduate with end-to-end ML pipeline expertise - EDA, feature engineering, model evaluation, and Streamlit deployment. Built simulations, deep learning models, NLP pipelines, and RAG-based AI applications.

TECHNICAL SKILLS

Machine Learning: Scikit-learn, Regression, Classification, Decision Trees, Random Forest, SVM, CNNs, TensorFlow/Keras

Languages: Python (Pandas, NumPy, Scikit-learn, TensorFlow), R, SQL, Google Apps Script

Statistical Methods: Hypothesis Testing, ANOVA, Chi-square, Logistic Regression, A/B Testing, Time Series, Monte Carlo Simulation

NLP & AI: NLTK, spaCy, TF-IDF, Sentiment Analysis, Vector Embeddings, FAISS, Generative AI, LLM Foundations

BI & Tools: Power BI, Looker Studio, Tableau, Matplotlib, Streamlit, Excel (Advanced)

EXPERIENCE

Research Analyst | Pharmarack - Mumbai

Feb 2026 - Aug 2026

- Designed Monte Carlo simulation engine (10,000+ iterations) for sales allocation and forecasting scenario optimization - maintaining growth constraints across states and geographies.
- Engineered automated feature-generation pipelines computing MAT, MoM, YoY Growth, Market Share, Contribution, and Portfolio KPIs across hundreds of products and geographies.
- Built SKU segmentation and performance tagging frameworks identifying high-growth, declining, and high-contribution products for commercial decision-making.
- Applied statistical QC validation and data cleansing methods on 100,000+ monthly pharma transaction records to ensure audit report reliability.
- Automated end-to-end analytical workflows using Python (Pandas, NumPy, OpenPyXL) - reduced manual reporting effort by 70–90% and improved early delivery.

Data Analyst | Axis My India - Mumbai

Dec 2025 - Feb 2026

- Applied statistical analysis on 200,000+ survey records to uncover patterns in government scheme adoption across demographic segments.
- Built predictive targeting models identifying high-potential outreach segments to improve scheme penetration and reduce resource wastage.

MIS Data Analyst | Arbour Investments - Mumbai

Apr 2025 - Nov 2025

- Conducted EDA and statistical analysis to identify operational inefficiencies across HR and Finance - presented data-driven optimization recommendations to leadership.
- Automated data pipelines using Google Apps Script and SQL, improving data accuracy by 20% and eliminating manual reporting errors.
- Built 10+ KPI dashboards translating business metrics into real-time analytical views - directly used by leadership for strategic decisions.

MIS Executive | Arbour Investments - Mumbai

Sep 2023 - Mar 2025

- Applied data modeling and process analytics to redesign workflows - reduced operational processing time by 30% across multiple departments.
- Developed data-driven investor onboarding application reducing retrieval time by 35%; implemented 40+ statistical process trackers with bottleneck summaries.
- Engineered automated task management and submission systems across 10+ departments - reduced delays by 20% through data-driven scheduling.

PROJECTS

Health Analytics Chatbot - RAG Pipeline [\[GitHub\]](#)

May 2026 - Present

- RAG pipeline on 2,000+ wearable records using FAISS, Sentence-Transformers & locally-hosted LLMs (Ollama) - personalized health risk estimation, end-to-end free pipeline.

Indian Movie Recommendation App [\[GitHub\]](#)

Jan 2026

- Content-based recommender using TF-IDF on IMDb data - explainable top-5 recommendations deployed via Streamlit.

Medical Insurance Cost Predictor [\[GitHub\]](#)

Dec 2024

- TensorFlow/Keras deep learning regression (MAE < 3500) - full preprocessing pipeline (scaling, encoding, log-transform) + interactive Streamlit what-if explorer showing lifestyle-cost impact.

Hospital Preference Statistical Study

May 2022

- Chi-square, logistic regression, Z-tests on 342 respondents - doctor recommendations & insurance identified as primary attributors.

EDUCATION

M.Sc. Statistics - MSU Baroda | CGPA 7.34 /10

2021 - 2023

B.Sc. Statistics - Bhavan's College, Mumbai University | CGPA 9.86/10

2018 - 2021

CERTIFICATIONS, AWARDS & LANGUAGES

Deloitte Australia - Data Analytics
(Forage, 2026)

Accenture - Data Analytics (Forage)
Practical LLMs - LinkedIn Learning (Aug 2026)

Data Science & ML - Udemy

BCG - Data Science (Forage)

AWARDS & LANGUAGES

INSPIRE Scholar - Top 1% in State

HackerRank Gold - SQL & Python

2nd Rank B.Sc. Statistics

Languages: English (Professional) - Hindi (Professional) - Gujarati (Professional) - Marathi (Elementary)
